

From the FBCG Regathering Team:

In an effort to continue to respond to ongoing COVID challenges, we are asking those who plan to attend worship services at First Baptist to **resume wearing a mask both while entering and exiting the building.** You are welcome to remove your mask once seated, but please make every effort to maintain a safe distance from those not in your group.

Beginning this coming Sunday, August 15, ushers will open the main front doors to the sanctuary by 10:30, as well as the side doors near the piano and the main office hallway door. You are welcome to enter whichever door is most convenient for you. Ushers will remain at the front door and in the back hallway during worship in order to provide any assistance to those arriving after 10:45 or for any other concern.

Bulletins and copies of hymns will be available in all three entry locations, as well as masks and hand sanitizer. Offering plates will be placed in the vestibule area as well as in the sanctuary.

Thank you for your continued patience as we make changes to meet the current situation. As we have said in the past, our goal is the safety of this church family as we move through this time. We will get through it together!

Thank you.
